I just learned about the upcoming FTC public workshop, "Monitoring Software on Your PC: Spyware, Adware, and Other Software," through a post on the Net-Integration Forums site.

Will there be a live webcast of the workshop on April 19, 2004? There are many people who are very interested in this workshop but are unable to attend, either because of work or other scheduling conflicts, or because they cannot afford to travel to Washington, D.C.

Please consider adding a live webcast of the workshop if this has not already been planned.

Thank you,
